

Amendments to the Specification:

Please amend the paragraph (section) beginning on page 17, at line 12 as shown below:

Now that the client machine is setup and the AR system is customized, biller information must be setup on the host system. In the example, the biller goes to the host system website ~~(for example, www.ezreceivables.com)~~ and logs on as a biller (Figure 10), bringing up the biller information tab. The biller must fill in company information and account type information (Figure 11).
